## The Souls Saving Business

There was a man who was noted saying "I'm not in the soul saving business." This man was not a member of the Lord's church. He was a leader of a religious organization. That religious organization claims a way to Christ and salvation. What business are they in?

We are in the soul saving business. It is our purpose, job, command, and privilege as God's Children in Christ. Never forget you have something the world needs! Take it to them before they find satisfaction in useless deeds.
